PROFESSIONAL OVERVIEW

I am a self-taught full-stack developer with a BSc in Computer Science. I've always found coding a path of life and I've pushed to learn with great motivation and humongous hours of exercise.

My experience as a freelance developer and technical educator has sharpened my ability to collaborate, mentor, and quickly adapt to new challenges. I have had the opportunity to contribute to large-scale applications, such as crew and student management systems, and create web interfaces that truly prioritize usability.
